Grave Concern

Graham Nash

Grave concern is rolling over the hill
See them grinding through the mill
Houses falling and they're falling still
Lightning striking, take coverAll fall down
All fall down
All fall down
All fall downDistant thunder rolling over the hill
Watch the weather take a turn
Shake the trees and let the leaves fall where they will
Pile them up and let 'em burnAll fall down
All fall down
All fall down
All fall down
