Baby I'm Scared Of You

Leela James

Come if you got real love for me
Stay away if you got games and tricks for me
I want a man that means everything he says
And not a boy full of play
Pulling rabbit out of his hat everyday
Oh baby I'm scared of you
[Chorus:]Oh I don't believe in magic
I believe in love everlasting
I can't understand that
Houdini, Houdini he was a great musician
He could crack a lock from any position
But my heart ain't noting like those locks

And your formula is not my brand of stock
Like Little Red Riding Hood, you're the fox
Oh baby I'm scared of you
[Repeat Chorus][Chorus 2:]Don't go pulling rabbits out of no hats
It'll be all I want from that, baby I can't go for that
[Vamp]And I can't understand that baby, oh no
I can't understand that
You ain't no Houdini, I can't understand that baby
