

# If Things Were Perfect

## Moby

Give me summer  
Give me summer  
Give me summer  
Give me summer  
Broken darkness my cold end  
I look for places I've never seen  
Nothing moves but the quiet on the street  
Now I open my eyes to this  
Isolated walking long hard hours  
Winter cold just brings me winter showers  
It's so brutal with the cold sky  
Wrapped in cold, late at night  
Give me summer  
Give me summer  
Come clean, there's no sun yet  
The only lights here are made  
I can't speak, I can't hear, but I know I'm real  
There's no warm here anyway  
The darkest lights before the dawn  
You remember the sun but it sank  
In the water that eats the light  
Wrapped in cold, late at night  
Give me summer  
Give me summer  
I open my eyes, it's cold  
The only souls go by  
Lift the bridge out of the water  
The stone black light  
Living is easy when it's night  
The cold has covered the rain  
I can see forever, to the deep  
Wrapped in cold, late at night  
Give me summer  
Give me summer  
Give me summer  
Give me summer
