

Tell me

Fuel Fandango

every day and every night
i see your face
every day and every night
i see your face
there is a picture in my mind
there is a picture in my mind cause i like to be the love
that we used to be the love
cause i thought we had enough
now you and me in the same place
we're ready to leave the boat
like we used to say before
but we don't wanna drown this love
i just wanna hold you
but not hold you tight what if i dream,
and hope that maybe it's real
and what if i dream....cause i, like, to watch the rope
that we used to stretch, before
cause i miss your voice
now you and me in the same place
like to be the love
i just wanna hold you
but not hold you tight what if i dream,
and hope that maybe it's real
and if i dream....
