

Tonight Forever

Fold Zandura

Now maybe I'm wrong but I cant see myself in your eyes
And maybe its taken so long
Just to uncover whats been there all this time
We never believed in each otherDont say tonight is forever
Youre fooling yourself, were fading
Were slowly losing the wonder
If nothing else of being in love, being in loveWould you admit from the start
Anything was better than speaking our minds?
Now would it tear us apart
To rediscover what we left behind?I just cant believe we let it slip awayCant say tonight is forever
Were fooling ourselves, were fading
Were slowly losing the wonder
If nothing else of staying in love, staying in loveFailing with words
When its all that we can do to be heard
When did we ever listen?We never believed in each otherDont say tonight is forever
Were fooling ourselves, were fading
Were slowly losing the wonder
If nothing else, being in loveBeing in love, being in love
(Losing the wonder, losing the wonder)
Being in love
(Losing the wonder)
(I can't believe it)
