Church On The Moon

Deitrick Haddon

Today is a celebration
When we live to see the church reach new heights
We dedicate this new territory
To God, we have, lift off
There's no gravity between you and me
Let's go to a place where there's no time or space
And the Holy Spirit has got me so high
Ooh, this must be what Heaven is like
This earthly atmosphere can't contain me
You might as well lift your praise and go with me
The only way to explain this to you
I'm havin' church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
We all can say we lived to see God do the impossible
The church is officially on the moon
Yeah, I'm out of this world, moving in the speed of light
New territories surrounded by His glory
Uplifting me to a place I've never been before
Got me flyin' higher than a eagle that ever soars
This earthly atmosphere won't restrain me
You might as well lift your praise and go with me
Only way to explain this to you
I'm havin' church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon

Church on the moon
Church on the moon
Church on the moon

Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
Church on the moon
From way up here, the problems look so small
And I'm not worried, no, God ain't gonna let me fall
I got a flag in my hand, I'm gon' set it down right here
And the world will know me and you at church on the moon, yeah
We're havin' church, we havin' church on the moon
We're havin' church, we havin' church on the moon
We're havin' church, we havin' church on the moon
We're havin' church, we havin' church on the moon
On the moon, church on the moon
Church on the moon, church on the moon
Church on the moon, church on the moon
Church on the moon, church on the moon
On the moon, church on the moon
Church on the moon, church on the moon
Church on the moon, church on the moon
Church on the moon, church on the moon
We're now all witnesses to the power of God
We are astounded of this phenomenon
They said that we couldn't do it
But our praise has taken us somewhere we haven't been before
We're havin' church, we're havin' church on the moon
We're havin' church, we're havin' church on the moon
We're havin' church, we're havin' church on the moon
We're havin' church, we're havin' church on the moon
