My Best Friends

PokÃ©mon

I love Annie and Amy and Emily,
I hope every lesbian learns to play guitar,
But when it comes to special rights like family,
I think marriage goes a bit too far.We're pushing and pushing,
Still never forget,
True equality, it hasn't happened yet,
But don't point your finger at me,
Take a look at my friends and you'll see.Stereotypes aren't for me,
But I never said life was fair,
Diversity makes us all free,
And somebody needs to cut hair.Look, I am a liberal guy,
I wear a ribbon, no one deserves to die,
You can tell I don't support the status quo,
Because "Ellen" is my favorite show,
My middle name is equal rights,
I'll talk the talk while you fight the fight,
I say I'm down but that's where it ends,
But I'm okay just look at my best friends.
