Something Stupid

Tammy Wynette

[verse 1:]
never once have you made me feel what we had was something real
i just came to realize ohh
never once have you said goodbye with a heart that starts to cry
that's not how its suppose to beso where do we go from here
where do we go from here
'cause all that you said was enough
to hold on and believe it forever[Chrous:]
so why do i feel like i'm livin' a lie
something in your eyes
is tellin' me to stop and think twice
and i just can't decide
so don't say you love me unless you mean it
'cause i might do something stupid
like believe it, like believe it
i might do something stupid
like believe it, like believe it
i might do something stupid[Verse 2:]
never once have you said hello without saying you've to go
and i can't help but wonder why
never once have you picked up the phone
just to call and let me know
how much you're thinkin' of meso where do we go from here
where do we go from here
'cause all that you said was enough
to hold on and believe it forever[Chrous:]
so why do i feel like i'm livin' a lie
something in your eyes
is tellin' me to stop and think twice
i just can't decide
so don't say you love me unless you mean it
'cause i might do something stupid
like believe it, like believe it
i might do something stupid
like it believe, like believe it
i might do something stupid[Verse 3:]
are we gonna get it right
were you ever really mine
even after all this time, no[Chrous:] x2

why do i feel like i'm livin' a lie
something in your eyes
is tellin' me to stop and think twice
i just can't decide
so don't say you love me unless you mean it
'cause i might do something stupid
like believe it, like believe it
i might do something stupidso why do i feel like i'm livin' a lie
something in your eyes
is tellin' me to stop and think twice
i just can't decide
so don't say you love me unless you mean it
'cause i might do something stupid
like believe it, like believe it
i might do something stupid
like it believe it, like believe it
i might do something stupid
