

# Lullaby

## Mexicolas

I've been dying to meet you  
For what that's worth  
And everybody close to you is telling me this time, it's gonna hurt  
Well no I'm not sorry, for taking our time  
I saw you turn, I saw you run with all the money, all the money left you starry eyed

(Chorus)

Multiply my wrongs and rights  
Hold me up to the light  
Lullabies

Well no one could catch you  
No matter how fast, no matter how far  
You took it this time  
I'm gonna need stitches  
For all the wrong reasons, for all the wrong turns  
But no one could reach you to teach you the things that you've learned

Multiply my wrongs and rights  
Hold me up to the light  
And you make your first incision while the television cries  
Lullabies

Don't shout cause your scaring my children  
Don't dance cause you're killing my rhythm  
Don't shout cause I know you don't mean it  
Come back cause I'm never gonna feel it

Multiply my wrongs and rights  
Hold me up to the light  
Lullabies  
Make your first incision while the television cries  
Lullabies
