

Can't Stop, Gotta Date With Hate

Lostprophets

Her eyes are open like a book
Her fingers stroke her hair to look
A moment feels so out of place
This will left standing in disgrace Paint your fingernails at night
Style your hair in the bathroom light
Hatred never looked this good
Whoever thought it could I don't wanna wait or leave it up to fate
'Cause I just wanna watch you all night
Screaming Andie, you're a goonie
Don't you wake me up, I don't want this dream to
Andie, you're a goonie
Don't you wake me up, I don't want this dream to end One kiss those lips could never lie
But I know something isn't right
Don't be fooled my friends aside
'Cause I see nothing in those eyes All said and done
This won't be fun
Make no mistake
Those smiles are fake Don't wanna wait or leave it up to fate
'Cause I just wanna watch you all night
Screaming Andie, you're a goonie
Don't you wake me up, I don't want this dream to
Andie, you're a goonie
Don't you wake me up, I don't want this dream to end But believe me
I know it will always be moving
I know we could find a key Andie, you're a goonie
Don't you wake me up, I don't want this dream to
Andie, you're a goonie
Don't you wake me up, I don't want this dream to All the times that we suffered this before
Never once, did you ever close that door
All the make up cannot hide that fact
That you're gone and you're never coming back
