

# Understanding

## Xscape

What I need from you  
Is understanding  
How can we communicate  
If you don't hear what I say What I need from you  
Is understanding  
So simple as 1, 2,3  
Understanding is what we need You don't really know me  
You just wanna do  
What you wanna do  
That's not the way it should be No, you should listen to me boy  
I try so very hard to make you understand  
But the choices you make  
Baby, they're all demands I try so very hard to keep our love alive  
But you don't wanna meet me half way  
Then the understanding dies There's no way that we can work it out  
If we don't pull together  
I don't mean to be demanding  
But I want some understanding  
I wanna be with you What I need from you  
Is understanding  
How can we communicate  
If you don't hear what I say What I need from you  
Is understanding  
So simple as 1-2-3  
Understanding is what we need I listen to you, baby  
And I know the things  
You're going through  
I try to understand  
That's why I'm still here with you, baby See everyday we're living  
Is one thing that will always be unsure  
That's why I need you baby, pleading, baby  
Please let our love endure I try so very hard to keep our love alive  
But you don't wanna meet me half way  
Then the understanding dies There's no way that we can work it out  
If we don't pull together  
I don't mean to be demanding  
But I want some understanding  
I wanna be with you What I need from you  
Is understanding

How can we communicate  
If you don't hear what I sayWhat I need from you  
Is understanding  
So simple as 1-2-3  
Understanding is what we needI try so very hard to keep our love alive  
But you don't wanna meet me half way  
Then the understanding diesThere's no way that we can work it out  
If we don't pull together  
I don't mean to be demanding  
But I want some understanding  
I wanna be with youWhat I need from you  
Is understanding  
How can we communicate  
If you don't hear what I sayWhat I need from you  
Is understanding  
So simple as 1-2-3  
Understanding is what we needWhat I need from you  
Is understanding  
How can we communicate  
If you don't hear what I sayWhat I need from you  
Is understanding  
So simple as 1-2-3  
Understanding is what we need
