Take Me Along

Matt Cusson

Take me along
Take me anywhere you belong
I'm much too weak to be strong
So before the moment's gone
Let's never say never babe
Let's just say forever. Don't walk away
Think of all the things we didn't say
So much we wanted to do
So before the night is through
We gotta make you and me
Much more than a memory.
It's you
Every thought is of you
This heart in my hands is for you, oh oh
And I feel there's so much more I can do
So won't you just take me along

Hey, it's you
Every thought is of you
This heart in my hands is for you
And I feel there's so much more I can do
So won't you just... don't say goodbye
Don't leave me wondering why
You left with tears in your eyes, those eyes
I just wanna be there for you
I've gotta with you
Take me along
