

Dirt Into Dust

Dust For Life

Not even time can kill me
I am the candle that burns an endless flame
I breathe the sand of your waiting
And all the darkness and hate that you embrace
Nothing can buy me
Nothing can tie me down
Nothing can waste me away
Nothing can stop me to rust, I am alive
Even as dirt into dust
And I can see for miles
Into the desert of your love
Now the cobra rises up to greet me
Rose petals rain down as she kisses me sweetly
Nothing can buy me
Nothing can tie me down
Nothing can waste me away
Nothing can stop me to rust, I am alive
Even as dirt into dust
Yeah, and I am not afraid
My love is strong and alive
And I will never desert you
And I will stay alive
I will stay alive
Nothing can buy me
Nothing can tie me down
Nothing can waste me away
Nothing can stop me to rust, I am alive
Even as dirt into dust
