

Wrong

Get Scared

Just take it back, take it back
You were wrong
You always took from me
You always lied to me
while I tried to fake a smileIs the only way
That you know how to play
Watch me prove you wrong
You're always telling me to bite my tongueYou were wrong, you blamed me
Just take it back, take it back
I was blind, whoa, you were wrong
You blamed me
Just take it back, take it back
I was blind, you were wrongYou always took away
Never giving anything
So I lied
But trust me I'm alright
I tried to find my way
I tried to find my place
It's so hard (It's so hard)
Cause you've poisoned my mindYou're always telling me to bite my tongue
You were wrong, you blame me
Just take it back, take it back
I was blind, whoa, you were wrong
You blame me
Just take it back, take it back
I was blind, and you were wrongI finally have a taste
Of what it's like to take away
You're done for, watch it slip awayThat thing you try to hide
Will eat you up, kill your insides
You're fading, you've lost your wayYou were wrong, you blame me
Just take it back, take it back
I was blind, whoa, you were wrong
You blamed me
Just take it back, take it back
I was blind, and you were wrongYou blame me
Just take it back, take it back
I was blind, whoa, you were wrong
You were wrong, you blamed me
Just take it back, take it back

I was blind, you were wrong
You were wrong, you were wrong
