

Turn To Stone

Girls Aloud

[Chorus]

Don't turn away

Keep me holding on

Don't turn away Just don't leave me now You're moving in circles

Looking for the love that I thought we made

While I stand alone

Say you wanna be certain

Certain that this feeling will never fade

But I need to know [Chorus: x2] Replaying the moments

Looking for the light that I thought we made

Did we let it go?

And all the kisses you've stolen

With every whisper and word you said

I just need to know [Chorus: x4] Did we let go

Nobody but you babe

Standing in the way of the love we made

And the hand you hold [Chorus: x4]
