

Go Crazy

Gi

GI

Oh oh oh oh oh oh oh

I Oh oh oh oh oh oh oh

I Oh oh oh oh oh oh oh

All I want to do is be close to you
Give you my time and chill with you
You never let me down when I needed you
So let me tell you what Im gonna do
answer you when I hear your call
stand up for you and never fall
wanna stay real and never change
cause our love is strong as a hurricane

I'll ride for you cause you never blame me
when I think about you I just go crazy
I will always love you cause you saved me
When I think about you I just go crazy

To be with you is my destiny
life ain't the same without you here with me
I never met nobody quite like you
so let me tell you what Im gonna do
spend more one on one time with you
To show how much I adore you
never act strange when Im with my crew
remain the same guy that your use too oh

I'll ride for you cause you never blame me
when I think about you I just go crazy
I will always love you cause you saved me
When I think about you I just go crazy

You rescued me yeah yeah yeah
You forgave me yeah yeah yeah
I'll never change no no no
I'll stay the same oh yeah oh yeah

I'll ride for you cause you never blame me
when I think about you I just go crazy
I will always love you cause you saved me
When I think about you I just go crazy
