Crystalline Green

Goldfrapp

Here we come
Driving down
Deep and wide
Settle down
On the beach
Get the sun
Coming Down
Wet and warm

I wanna waste is playing
Spend all our day in a dream
Crystalline green watch it rolling
Feeling the weight
Of the sun

Here we come
Driving down
Deep and wide
Blue and green
Breathing in
Come alive, here we come
With the stars

Letting slip it through my fingers
Little rings float in your eyes
Try to forget who you are now
Stare into space
Watch the sky
