

Beware! Cougar!

The Academy Is...

When I met you, you were on your back
We still spend most afternoons like that

 But not for long

 Well, I find myself enjoying you

But you play these reckless games you'll never lose

 As long as I'm around

 Do you wanna tie me up?

 Do you wanna tie me down?

 Go ahead and do it now

 So far, so good, let it roll, let it ride, ride

 So far, so good, let us fall, let us fight, fight

 It's no fun on the sidelines

 We both know I'm too young for you

 And when you fake a laugh behind the wheel

 I know where this road is heading to

 With a sunken lie I lay in bed

 But I will live to be twenty-three

 And you'll see just how clever I can be

 Do you wanna tie me up?

 Do you wanna tie me down?

 Go ahead and do it now

 So far, so good, let it roll, let it ride, ride

 So far, so good, let us fall, let us fight, fight

 It's no fun on the sidelines

 Driving backwards, wasting time

 Young love is ruthless, so learn to fly

 You taught me things I can't forget

 Positions that I don't regret

 I can't walk away and I can't shake the taste

 Do you wanna tie me up?

 Do you wanna tie me down?

 Go ahead and do it now

 So far, so good, let it roll, let it ride, ride

 So far, so good, let us fall, let us fight, fight

 It's no fun on the sidelines

 It's no fun on the sidelines, no

 Don't write a word 'cause I won't reply
