

# Little By Little

## Ub40

Poor man's anger rising  
The ostrich hides his head  
Soon the red blood will be boiling  
And blue blood will be dead  
While we say  
Little by little by little  
And stone by stone  
Rich man's mountain  
Comes crumbling down  
Poor boy sleeps on straw  
The rich boy sleeps in bed  
That fat boy fills his belly  
My poor boy's a dead  
While we say  
Little by little by little  
And stone by stone  
Rich man's mountain  
Comes crumbling down  
The rich man drives his car past  
The poor man on bare feet  
Oh, that rich man do get what he wants  
The poor must know defeat  
Little by little by little  
And stone by stone  
Rich man's mountain  
Comes crumbling down  
Little by little by little  
And stone by stone  
Rich man's mountain  
Comes crumbling down  
Little by little by little  
And stone by stone  
Rich man's mountain  
Comes crumbling down  
Little by little by little  
And stone by stone
