

# Instinct

## Ektomorf

I am who I am  
Walk on my own way  
Follow my instinctI am the target of your jealousy  
I am the one who you just wanna be  
Look, look in the mirror, what you see  
You full of shit why can't you seeI am the target of your anger  
I am the one who you call danger  
I am the one who believe in destiny  
You motherfucker I am your enemy  
Your worse enemyI am who I am  
Walk on my own way  
Follow my instinctI am the target of your jealousy  
I am the one who you just wanna be  
I am the one who believe in destiny  
You motherfucker I am your enemyI am who I am  
Walk on my own way  
Follow my instinctYou just wanna be  
You're full of shit  
You just wanna be  
You're fucking envyYou just wanna be
