The Prince You Charmed

Youngstown

I've heard time and time again, how things fall apart
How nothing lasts forever, well they're wrong
'Cause through the thick and thin and the nights that seemed so long
You were there without a worry you stood strongYou've got the key to my heart, right here in my arms
I'll keep you safe and warm
And you'll never have to worry, never want for nothin'
Cause I'm, I'm the prince you charmedIt seems so long ago, that my world was upside down
When my life was filled with tears and the skies were gray
But then you came around
I never felt love so profound
I never knew that happiness could feel this wayYou've got the key to my heart, right here in my arms
I'll keep you safe and warm
And you'll never have to worry, never want for nothin'
Cause I'm, I'm the prince you charmedI'll shout it out to the heavens
Thank God for your love and all the things you doYou've got the key to my heart, right here in my arms
I'll keep you safe and warm
And you'll never have to worry, never want for nothin'
Cause I'm, I'm the prince you charmed
