Testify (feat. Crystal Waters)

Hifi Sean

Tell me what you mean by
loving me on higher?

And show me what those days are?

you want to give me what you got?
I must confess
I got my dreams
I got my demons
something to believe in
careful how you lead me
oh you know
I'm just a lonely soul sister
searching for it mister

I got my road
my goals

now take me to your river
and lay me in the water
and preach to me
tell me why i need your love?
why i got to have your love?
testify your love

Make me a believer.

Tell what you mean by
I ain't living right yeah?

and tell me again when you wanna?
you wanna take all this fight?
I got two fists
I got my dreams
I got my demons
something to believe in
careful how you treat me
oh you know
I'm just a lonely soul sister

searching for it mister

I got my road
my goals

now take me to your river
and lay me in the water
and preach to me
tell me why i need your love?
why i got to have your love?
testify your love

now take me to your river
and lay me in the water
and preach to me
tell me why i need your love?
why i got to have your love?
testify your love
make me a believer

So you say one day you'll be my
my love?
my life?
my guiding light?
my pillar of strength?
I'll call you home?
my rock?
my stone?

Take me to your river
and lay me in the water
and preach to me
tell me why i need your love?
why I got to have your love?
testify your love?

now take me to your river
and lay me in the water
and preach to me
tell me why I need your love?
why I got to have your love?
testify your love?

make me a believer.
