

# Gravity

## No Doubt

We're so lucky  
still holding on  
just like venus and the morning sun  
you and me got gravity i don't know where all the time went  
light years and so many moons  
so many close calls  
now i see a thousand percent  
you meant what you said and it's good  
'cause everybody falls a million miles and it fades  
we're into orbit now we're safe  
so don't you let go  
don't ever let me float away  
we're so lucky  
still holding on  
just like venus and the morning sun  
you and me got gravity when it's feeling like a solar eclipse  
in the shade it gets so cold  
you think it'll never go  
exploding like a beat up rocket ship  
spinning so fast round the world  
wish we could make it slow down we're so lucky  
still holding on  
just like venus and the morning sun  
you and me got gravity  
we're so lucky  
still holding on  
just like venus and the morning sun  
you and me got gravity and we can swim the milky way like star-crossed lovers do  
i never really thought we'd ever make out this far did you?  
spent a million out in space, me and you, me and you...we're so lucky  
still holding on  
just like venus and the morning sun  
you and me got gravity  
st you i
