

# Electronic Renaissance

## Belle and Sebastian

Play a game with your electronics  
Take a step to the discotheque and people  
Go outside where theres someone watching cars go by  
And the city tall with steeplesHand in hand with the Electronic Renaissance is the way to go, yeah  
Hand in hand with the Electronic Renaissance is the way to go, boy  
Hand in hand with the Electronic Renaissance is the way to go  
Youre learning, soon you will do the things you wanted  
Since you were wearing glitter badgesIf you dance for much very longer  
Youll be known as the boy whos always dancing  
If you work for much very longer  
Youll be known as the boy whos always workingMonochrome in the 1990s you go disco and Ill go my way  
Monochrome in the 1990s you go disco and Ill go my way  
Monochrome in the 1990s you go disco and Ill go  
Funkadelic man is the way to go so drop a pill and then say "Hello"
