Buried

Until the End

You can cover my eyes
I will never be blind
I will never be decieved
You're gonna be buried and blindTake these words to heart
Theres nothing more pure than this
Watch me fall apart, I've failed
And left you the shell of a manYou have no fucking heart
Theres nothing more true than this
I'll rip your life apart, I swear
There is nothing more trueI will never be blind
I will bring the end
I will destroy your faithI will not let you remain
Ignorant to the lies
I will not let you
Down ever againI will never fail
I will never be wrong
I will never fail
I will never be wrong again
