

# Road Less Traveled

## Verse

I REFUSE

To believe in blind traditions

Or buy into this fake world

I will not ignore the truth

I won't follow the sheep and be fooled

I refuse to forget all that I've learned

I see the truth that most choose to fight

Because that is not what I have in mind

As a perfect life

I REFUSE

To believe in blind traditions

Or buy into this fake world

I will not ignore the truth

I won't follow the sheep and be fooled

I refuse to forget all that I've learned

I see the truth that most choose to fight

Because that is not what I have in mind

As a perfect life

I REFUSE when this world tries to poison me

I REFUSE

... I REFUSE...

When this world tries to poison me

I REFUSE to forget all that I've learned

In a world force feeding so many lies

All the confusion of CHOOSING SIDES

I have searched and found what is best for me

And this world will never that that from me
