Thinking About You

Andrew Allen

Anytime I look up at the stars
I remember which ones you said where ours
And no one told me this would be so hard
Cuz I, feel like I'm a million miles away tonight
It's like I'm a million miles awayEverywhere I go-o
I'm thinking about you
Just want you to know
I'm thinking about you
New York or London, no matter where I've been
The one thing that helps me get through
Is thinking about you
Is thinking about youIt's been a little crazy I know
In and out of different time zones
Wishing I was on my way back home
Cuz I, feel like I'm a million miles away tonight
It's like I'm a million miles awayEverywhere I go-o
I'm thinking about you
Just want you to know
I'm thinking about you
New York or London, no matter where I've been
The one thing that helps me get through
Is thinking about you
Is thinking about you
Is thinking about youCounting down the days till we're together
While Im a million miles awayEverywhere I go-o
I'm thinking about you
Just want you to know
I'm thinking about you
New York or London, no matter where I've been
The one thing that helps me get through
Is thinking about you
Is thinking about you
Is thinking about you
I'm thinking about youI'm thinking about you
