# Night & Day

## Sarah Blasko

words enter space, into unfair terrain
they are gone now, exited my mouthwords find you cold, actions are too bold
oh how can we, bridge this divide?we're like night & day, like night & day
a bitter night, and a broken dayyou'll never change, always the same
while i move, quicker than the tidesbut yours is a face, my mind won't erase
and i know, i can't say goodbyewe're like night & day, like night & day
i love the nights, you see the daythey're just nights & days, they'll be wide awake
they're just nights & days, just nights & daysoh, how could we grow old together?
oh, how could we grow old together?we're like night & day, like night & day
we're like night & day, we were born this waywe're like night & day, like night & day
such a lovely night & a beautiful day
