

Too Loud

Icon for Hire

Hey girl,
Don't listen to your mother
When she tells you you ain't pretty
Need to look more like the others
Hey boy,
Don't let your daddy tell you
If you don't got it together
That you're gonna be a failure
Let's stop letting everyone
Tell us how to feel
Tell us how to dream
Let's stop letting everyone
Tell us how to live
Tell us who to be
Oh no no am I getting too loud?
Am I getting too loud?
Am I getting too loud?
Oh no no am I getting in your head?
Am I getting in your head?
Getting in your head? Oh no no am I getting too loud?
Am I getting too loud?
Am I getting too loud?
Oh no no am I getting in your head?
Am I getting in your head?
Getting in your head? You know they're coming for your fire
When they try to push you lower
But you keep on going higher
You're a flame,
And they all wanna water you down
Wanna water you down down
Let's stop letting everyone
Tell us how to feel
Tell us how to dream
Let's stop letting everyone
Tell us how to live
Tell us who to be
Oh no no am I getting too loud?
Am I getting too loud?
Am I getting too loud?
Oh no no am I getting in your head?
Am I getting in your head?
Getting in your head? Oh no no am I getting too loud?

Am I getting too loud?
Am I getting too loud?
Oh no no am I getting in your head?
Am I getting in your head?
Getting in your head?Gonna make you listen
Gonna make you move
You can't ignore the truth inside youGonna make you listen
Gonna make you move
You can't ignore the truth inside youOh no no am I getting too loud?
Am I getting too loud?
Am I getting too loud?
Oh no no am I getting in your head?
Am I getting in your head?
Getting in your head?Oh no no am I getting too loud?
Am I getting too loud?
Am I getting too loud?
Oh no no am I getting in your head?
Am I getting in your head?
Getting in your head?
