Time Bomb

Our Lady Peace

I checked my pulse, said all my prayers
Walked a thousand miles, haven't gotten anywhere
The table's set, change is gonna come
I'm a patient man, but it's been too long
I'm waiting for something to happen
yeah I'm waiting for something to happen
I'm on that road, been driving fast
Keep my eyes straight and stay away from the past
I miss your face and the way you laugh
Remember me if I don't make it back
I'm waiting for something to happen
I'm waiting for something to happen
Anticipating that something will happen

I'm waiting for something good to happen
So now I see my own reflection staring back at me
And I'm traveling with no direction,
I'll follow faithfully
I'm waiting for something to happen
I'm waiting for something to happen
I Checked my pulse, said all my prayers
Walked a thousand miles, haven't gotten anywhere
I wonder, yeah I wonder
The table's set, change is gonna come
I'm a patient man, but it's been too long
I wonder, yeah I wonder
