

# Hear Me

## Hatebreed

I used to think the day would never come  
It's on my heels and I'm running on my own  
Carefree days, man I never knew  
They could catch me and stick to me like glue  
It was so funny, remember how we laughed  
Growing cold, I can't get away from the past  
It goes right for my throat  
It crushes me, but I won't let it show  
If I do, you might see that I'm scared  
I want to run, but I just don't know where  
Once again my fists hide my fear  
Each blow is followed by a tear  
It was so funny, remember how we laughed  
Growing cold, I can't get away from the past!  
I can't get away from the past! Oh yeah!  
Can you hear me? Hear when I scream  
You hear my words, but do you know what I mean?  
I'm tired, tired of the games we play  
I'm through fighting, you'll never know what I wanted to say
