

# Dancing in the Ashes

## Psychotic Waltz

I see it coming back around  
I see it coming all down  
I see the future is red  
I see the innocent are laying dead  
I hear the warlords pray  
They cover the dead where they're laying  
Until the battle is won, the war has just begun  
Burning like a hell, goddamn  
It's just a different time and another kind of Vietnam  
Burning fire, we are going to burn in the fire  
We're gonna burn it high  
Can you hear all the lies  
That try to cover their cries  
The hell is more real than the television can make it feel  
Keep the war machine fed  
Try cover your head  
Just think of God as a gun  
This is the freedom that you've won  
The skyline is glowing  
And the fire is growing  
This is the world that we live in  
The only gift is that we're giving in  
Blind by the flashes  
Now we're dancing in the ashes  
Singing God is a gun  
This is the freedom that you've won
