

# Just a Dog

## Tindersticks

Out here in the street  
Is not where I wanna be  
Under her feet  
Just to be with her The sheets are on the line billowing  
We'll sleep with the smell of the breeze  
The places I've been  
Or someone I used to be Out here in the street  
Nothing grows  
There's nothing that I don't  
Already own There's a big big world in there  
And I want it all  
From the tips of her hair  
To the core I'm just a dog  
Training to be a man  
I'm just a dog  
Learning stuff that I don't understand  
But at night, I howl  
But at night, I howl And even though I hate it  
I need a good bathing  
A long untangling  
'Cause my heart's aching I'm just a dog  
Training to be a man  
I'm just a dog  
But at night, I howl  
Just a dog  
I'm just a dog
