

Gin And Money

Marcy Playground

Sad eyes, I can tell you're thinking, honey
I can see it in the back of your mind, yeah
It's a cold night, I got cocaine, gin and money
Let's take it to the back of my ride, yeah
So you wanna call me daddy
Girl, you can call me anything you like
Ooh, you're so fine
You're gonna push me, baby
Right to the edge of right and wrong, alright
You're gonna push me, baby
Right to the edge and go beyond and you're right
I'm a bad guy, I can tell you're thinking, honey
I can see it in the back of your mind, yeah
It's a cold night, I got cocaine, gin and money
Let's take it to the end of the line, yes
You're gonna push me, baby
Right to the edge of right and wrong, alright
You're gonna ride it, baby
Right to the edge and go beyond, that's right
Love give me, sin with me
Blood pumping, lust in your eyes
