

Take Two And Pass

Gang Starr

Intro/Chorus:

Take two and pass (3X)

so the blunt will last

Take two and pass so we can all get blunted

Don't smoke ciggarettes so my growth ain't stunted

We got at least five head so I rolled a white owl

It's the break of dawn and we're awake like night owls

Phillies are cool but they burn much quicker...

... hey yo come on pass that shit nigga

We lounge to the sounds as we leave from Uptown

It's time to go downtown and make some more rounds

This city never sleeps that what Sinatra sang

For that fat fat blunt you know I got this thing

so hand it over cause I wanna get charred

I'm in love with mary jane she keeps me large

So don't hog it let's get it moving real fast

Everybody just chill and take like two pulls and pass

Chorus

The club is crowded everyone's up in here

Heyo Premier what's that you got there?

It looks like a nice plump blunt in your hand

I just know you're gonna share it with me cause I'm your man

So bust it, I got one too and if you spark up yours

I'll light up mine when it's through

Oh shit, there goes my man the fat mack

We used to get blazed I know he's got a fat sack

Let's go upstairs grab a chair and unwind

so the la la can enhance our minds

The system booming let the bass increase

I find me a seat so I can peep the chic

ladies and maybe get my homeboys some ass

All you gotta do is take two pulls and pass

Chorus

Even in the morning like the flavor of juice

A blunt adds spice and a blunt can spruce

up your day but I'm not advertising just telling

of aspect a part of our lives

And around the way there ain't no shame in our game

cause the fame is no thing we get together and hang
And since you know I got dash and class
then I'm after you so take two pulls and pass
