Fear the Force

Ten

This land was stark and bare,
A veil of darkest night disguised our deep despair
We lived in danger here under a shadow of fear
But then the stranger came
He spoke in ancient tongue, his task was pre-ordained
He broke the ancient seal upon a box he revealedAnd in the still of night his incantations lit up the sky
They mesmerized us
And from the shapes they formed emerged the great unicorn
His bare back rider on the storm
As day and night were born
The yin and yang were torn
They sail a chartered course
Each as the purest source
Of darkness and of light
The dragon knows his claws
Can't touch the unicorn
Fear the forceA single ray of light
Disturbed the dragon's sleep
The time has come to fight
He knew his Nemesis as it appeared from the mistWhite lighting from the sky
Struck at the beast as it turned to fly
The titan cried out
Then as the sage foretold,
From black and white come the whole
As natural balance was restored
As day and night were born
The yin and yang were torn
They sail a chartered course
Each as the purest source
Of darkness and of light
The dragon knows his claws
Can't touch the unicorn
Fear the force
