The Bright Side

We Shot The Moon

I'm just fine, I'll be looking on the bright side
(You got me looking)
(You got me looking)
I lost my fear because fear is never living
(You got me looking)
(You got me looking)
All these promises were made
Hey I'm living full stride
I will get this right tonight
(Oh oh oh)
Hey theres movement in me that runs very deep inside
(Oh oh oh)
My old man told me life is just beginning
(You got me looking)
(You got me looking)
I climb these stairs but they always leave me empty
(You got me looking)
(You got me looking)
All these promises were made

Hey I'm living full stride
I will get this right tonight
(Oh oh oh)
Hey there's movement in me that runs very deep inside
(Oh oh oh)
Hey (hey!) my feet found the beat they dance through the street tonight
(Oh oh oh)
Hey (hey!) there's movement in me that runs very deep inside
I'll I'll run to you (ill run to you)
Hey (hey!) I'm living full stride I will get this right tonight
(Oh oh oh)
Hey (hey!) there's movement in me that runs very deep inside
(Oh oh oh)
Hey I'm living full stride I will get this right tonight
(The brightside there's always a brightside always the right side)
Hey there's movement in me that runs very deep inside
(My old man said life is beginning life is for living)
I'm just fine I'll be looking on the brightside
