## VeggieTales

it's laura's fault she broke the plate i tried to stop her  
she said she had to demonstratw her....apple chopper  
the apple chopper worked just great.  
it chopped right through your bowling plate.  
it's laura's fault she broke the plate it's true.  
and that's the tale i have to tell to you!

well.....

it's lenny's fault he broke the plate he's very naughty.  
how was i to know he hated art bogoti?  
he gave it to a crocodile,  
who chewed it up for quite a while.  
it's lenny's fault he broke the plate it's true.  
and that's the tale i have to tell to you!
