Beautiful

Late Night Alumni

Here we are, finally together
Holding close, never release
This feeling, this moment
My dream is now - Alive in you.Chorus:
'Cause you're beautiful
Something in your eyes tells me
I have found
Love that never dies
I don't have to dream
Reality is beautiful in you
I never felt more true.There you are
Finally the answer
Take my hand
Never release
The sweetness, the magic, and happiness - I've found in youChorus:
'Cause you're beautiful
Something in your eyes
Tells me I have found
Love that never dies
I don't have to dream
Reality is beautiful in you
I never felt more true(Here we are...)Chorus:
'Cause you're beautiful
Something in your eyes
Tells me I have found
Love that never dies
I don't have to dream
Reality is beautiful in you
I never felt more true
