

Beautiful

Late Night Alumni

Here we are, finally together
Holding close, never release
This feeling, this moment
My dream is now - Alive in you.Chorus:

'Cause you're beautiful
Something in your eyes tells me

I have found

Love that never dies

I don't have to dream

Reality is beautiful in you

I never felt more true.There you are

Finally the answer

Take my hand

Never release

The sweetness, the magic, and happiness - I've found in youChorus:

'Cause you're beautiful

Something in your eyes

Tells me I have found

Love that never dies

I don't have to dream

Reality is beautiful in you

I never felt more true(Here we are...)Chorus:

'Cause you're beautiful

Something in your eyes

Tells me I have found

Love that never dies

I don't have to dream

Reality is beautiful in you

I never felt more true
