Eyes to See

Fit for a King

I want you to know that I see
All the reasons why you fail
I've seen all your motivations
Ones for good and ones for hell
When you close your eyes to see
The truth that's inside me
May you hold your breath to breathe
Your empty reality
If you had eyes to see
Down inside your stomach
Then you would understand
What I mean
Who I am
Who I am
I was pouring out of passion
To light the step you're on
You choose not to hear or waken
All thats left is you alone
When you close your eyes to see
The truth that's inside me

May you hold your breath to breathe
Your empty reality
If you had eyes to see
Down inside your stomach
Then you would understand
What I mean
Who I am
Who I am
You can't limit me
With all your gross mistakes
If you had eyes to see
Down inside your stomach
Then you would understand
What I mean
Who I am
Who I am
