Without You

Masketta Fall

This brings us back to square one
A place that has never felt so cold
But now I'm falling in love
And I'm breaking in every waySo we here are for the second time
And don't you wanna find what you've never seen before (before)
So here we are what you gonna say
When you see those places
And meet those faces that you dreamed of all alongI can not do this without you
But all I want is to stand and take the crown
I can not do this without you
So find a way and together we will beStronger inside
Like I've finally found the answers
No more fighting for life
Together we can show them who we really are
Is it a sign this square could just be blessingWhen I walk I imagine you there
I'm the only one who sees it
And I'm dying to believe it
Lay me to rest if I can't have you here
I guess I'll never see those faces
That I dreamed of all alongI can not do this without you
(I can not do this without you)
But all I want is to stand and take the crown
I can not do this without you
So find a way and together we will beSo here we are for the second time
And don't you wanna find what you've never seen before
So we here are what you gonna say
When you see those places you've dreamed of all along
(Dreamed of all along)I can not do this
I can not do this without you
Without you
Without you
I can not do this without youWhen I walk I imagine you there
I'm the only one who sees it
And I'm dying to believe itI can not do this without you
But all I want is to stand and and take the crown
I can not do this without you
(I can not do this without you)
So find a way and together we will beI can not do this
I can not do this without you
