Goddess Gladys

Puggy

Far, way beyond the stars
She is out there in the dark
Gladys knows her thing
She knows how weak you are
She'll tear off all of your limbs
And finish with your heart
You know what I meanGoddess Gladys
Never gonna let you have it
'Til you break down
'Til you break down
Goddess Gladys
Tempted by the queen galactic
Will have you break down
Will have you break downShe's nothing that you've seen
Oh, she'll ride you to your dreamsGoddess Gladys
Never gonna let you have it
'Til you break down
'Til you break down
Goddess Gladys
Tempted by the queen galactic
Will have you break down
Will have you break downGoddess Gladys never gonna let your have it
Goddess Gladys never gonna let your have it
Goddess Gladys never gonna let your have it
Goddess Gladys never gonna let your have itGladys makes you sing
Before she makes your starve
She'll tear off all of your limbs
And finish with your heartGoddess Gladys
Never gonna let you have it
'Til you break down
'Til you break down
Goddess Gladys
Tempted by the queen galactic
Will have you break down
Will have you break downGoddess Gladys
Never gonna let you have it
'Til you break down
'Til you break down
Goddess Gladys

Tempted by the queen galactic
Will have you break down
Will have you break down
