

Open Your Heart

M People

Baby, baby, baby
Baby, baby, baby If I only knew, how you feel
I would give my heart to you
And if you let me in on your deal
Maybe I won't feel so blue Give me a signal from the heart
Some kind of sign boy of who you really are
Don't waste my time 'cause we've come too far
You must decide now if I'm your star Open up your heart
(Oh baby, baby)
Open up your heart
Make me feel a part
(Oh baby, baby)

Open up your heart Why don't you wear, your heart on my sleeve
Then you can take your place by me
And I've got more to give than you need
Come on and end this misery Give me a signal from the heart
Some kind of sign boy of who you really are
Don't waste my time 'cos we've come too far
It makes no sense now when we're apart Open up your heart
(Oh baby, baby)
Open up your heart
Make me feel a part
(Oh baby, baby)

Open up your heart Open up your heart
Open up your heart
Make me feel a part

Open up your heart Give me a signal from the heart
Some kind of sign boy of who you really are
Don't waste my time 'cos we've come too far
You must decide now if I'm your star Open up your heart
(Oh baby, baby)
Open up your heart
Make me feel a part
(Oh baby, baby)

Open up your heart Open up your heart
(Oh baby, baby)
Open up your heart
Make me feel a part
Open up your heart Baby, baby, baby

Baby, baby, baby
