

# Singing In the Dark

## Miaoux Miaoux

It's a long way to fall  
But you know we can't live on  
When you say your opportunity is here  
I will write it down  
To prevent it dragging out  
But the recommended road is never clear

Singing in the dark  
But you're not listening  
I'll be on my way before you take it on  
I'll be on the back foot, always travelling  
Tell me if you think you're coming home

It's a long way to fall  
If you cannot cope at all  
With the terrible condition you are in  
I would stay and assist  
But it's shameful to admit  
That to me it's not as serious as this

Singing in the dark  
But you're not listening  
I'll be on my way before you take it on  
I'll be on the back foot, always travelling  
Tell me if you think you're coming home  
Tell me if you think you're coming home

Singing in the dark  
But you're not listening  
I'll be on my way before you take it on  
I'll be on the back foot, always travelling  
Tell me if you think you're coming home

Singing in the dark  
But you're not listening  
I'll be on my way before you take it on  
I'll be on the back foot, always travelling  
Tell me if you think you're coming home
