## VolapÃ¼k

Welcome to the mission  
My music has got to get what it rightfully deserve  
Shaggy  
My music got me on a mission, I'm following my intuition  
Why don't you check the composition  
With this ya music when it hit you, say you feel no pain  
My music got me on a mission, I'm following my intuition  
Why don't you check the composition  
With this ya music when it hits you  
My music is my mission, I'm here to take it around the world  
To get the global recognition that we fully deserve  
To every man, every woman, little boys, little girls  
Embrace the sweet reggae culture, there's a lot more to learn  
You could a be from the east, could a be from the west  
Could a be from the north, so could a be from the south  
No matter where down in a the world  
Shaggy will be at your doorstep  
Pan you cassette down in a you deck  
No bother think about eject, better yet  
How about you get it live and direct, say mic check  
(Mic check)  
No sabotage mi sound check, you better let a lyrical genius  
Come try intercept, Shaggy a say one more time, sing again  
My music got me on a mission, I'm following my intuition  
Why don't you check the composition  
With this ya music when it hit you, say you feel no pain  
My music got me on a mission, I'm following my intuition
