

# Get Out of the City

Ivy

Summer days are long and lonely  
Cars are moving slowly  
The streets are filled with air so still  
I'm trying to get out of the city  
Trying to get out of the city Everybody's angry  
It's hard not to be lazy  
It's a bad time to have work to do  
I'm trying to get out of the city  
Trying to get out of the city Roll the windows down, take a look around  
Everything is melting in the sun, nothings getting done  
I don't have the time  
Can't you see that I'm trying to get out of the city  
Trying to get out of the city Roll the windows down, take a look around  
Everything is melting in the sun, nothings getting done  
I don't have the time  
Can't you see that I'm trying to get out of the city  
Trying to get out of the city
