

# Bad Religion

## Accept

As long as I remember -  
I was left all by myself  
When trouble crossed my way  
I stood alone  
My old man hit the bottle -  
my mom was running scared  
The old forgotten prayers turned  
to stone  
Im searching for identity -  
I dont show who I am  
The past has cast a shadow over me  
Like a bad religion -  
the only one I know  
I never had no shelter - never had  
a place to go  
A bad religion - my life  
is make-believe  
Bad religion - Im beggin for relief  
I tried to break the circle - to  
break the vicious spell  
But the past is always heavy  
on my mind  
Im dancing with the devil -  
a dangerous romance  
A daring way to leave it all behind  
Im searching for identity -  
I dont know who I am  
The past has cast a shadow over me  
Like a bad religion -  
the only one I know  
I never had no shelter  
never had a place to go  
A bad religion - my life  
is make-believe  
Bad religion  
I need someone to talk to -  
someone to understand  
I need a friend to lend a helping hand  
Im gonna pull myself together -

shed this battered skin  
Im ready for the challenge -  
this losers out to win  
Like a bad religion -  
the only one I know  
I never had no shelter -  
never had a place to go  
A bad religion - my life  
is make-believe  
Bad religion - Im beggin for  
relief - bad religion
