

The Only Star In Heaven

Frankie Goes To Hollywood

Enjoy it or get out the game
It's such a shame to lose a game
So use your brain and play it sane
It's just a game in another plane
And when I call you on the phone
Then show me that you're really home
Let's share this thing and I will sing
Live life like a diamond ring
I can tell you something
(Shoop shark)
That you oughta know, know
Feel my feeling
(Shoop shark)
Go to let it show show show
Got to shake your tail to break away
(Fish)
Got to shake your tail to make a wave
(Shark)
Got to shake your tail to break away
(Fish)
Got to shake your tail to make a wave
Shark
Get hot, red hot
Everybody create
Create your bait
Everybody create
Before it's too late
Live life like a diamond ring
Live life like a diamond ring
Everybody create
Create your bait
Everybody create
Before it's too late
Got to shake your tail to break away
(Fish)
Got to shake your tail to make a wave
(Shark)
Got to shake your tail to break away
(Fish)

Got to shake your tail to make a wave

(Shark)

You're the only star in Heaven

You're the only star that shines

You're the only star in Heaven

Now that only star is mine

Mine yeah

On my way to Hollywood

The minute I get there

And this is how you get there

Yeah yeah

Love, love

You gotta fan a flame

(Flame flame fire)

You gotta fan a flame

(Flame flame fire)

You gotta fan a flame

Called love, love

Space is a place

(Let me out)

Space is a place

(Let me out)

Space is a place

Called love, love

You're the only star in Heaven

You're the only star that shines

You're the only star in Heaven

Now that only star is mine

You're the only star in Heaven

You're the only star that shines

You're the only star in Heaven

Now that only star is mine

Play it

Ohh ohh ohh

And this is how you get there

On my way to Hollywood

The minute I get there

The minute I get there

For love I stake this place

Say it again

Stake this place for love

You're the only star in Heaven

You're the only star that shines

Let me out

You're the only star in Heaven, yeah

Now I know that star is mine
You're the only star in Heaven
You're the only star that shines
You're the only star in Heaven
Now I know that star is mine
You're the only star in Heaven
You're the only star that shines
You're the only star in Heaven
Now I know that star is mine
