

# The Only Star In Heaven

## Frankie Goes To Hollywood

Enjoy it or get out the game  
It's such a shame to lose a game  
So use your brain and play it sane  
It's just a game in another plane  
And when I call you on the phone  
Then show me that you're really home  
Let's share this thing and I will sing  
Live life like a diamond ring  
I can tell you something  
(Shoop shark)  
That you oughta know, know  
Feel my feeling  
(Shoop shark)  
Go to let it show show show  
Got to shake your tail to break away  
(Fish)  
Got to shake your tail to make a wave  
(Shark)  
Got to shake your tail to break away  
(Fish)  
Got to shake your tail to make a wave  
Shark  
Get hot, red hot  
Everybody create  
Create your bait  
Everybody create  
Before it's too late  
Live life like a diamond ring  
Live life like a diamond ring  
Everybody create  
Create your bait  
Everybody create  
Before it's too late  
Got to shake your tail to break away  
(Fish)  
Got to shake your tail to make a wave  
(Shark)  
Got to shake your tail to break away  
(Fish)

Got to shake your tail to make a wave

(Shark)

You're the only star in Heaven

You're the only star that shines

You're the only star in Heaven

Now that only star is mine

Mine yeah

On my way to Hollywood

The minute I get there

And this is how you get there

Yeah yeah

Love, love

You gotta fan a flame

(Flame flame fire)

You gotta fan a flame

(Flame flame fire)

You gotta fan a flame

Called love, love

Space is a place

(Let me out)

Space is a place

(Let me out)

Space is a place

Called love, love

You're the only star in Heaven

You're the only star that shines

You're the only star in Heaven

Now that only star is mine

You're the only star in Heaven

You're the only star that shines

You're the only star in Heaven

Now that only star is mine

Play it

Ohh ohh ohh

And this is how you get there

On my way to Hollywood

The minute I get there

The minute I get there

For love I stake this place

Say it again

Stake this place for love

You're the only star in Heaven

You're the only star that shines

Let me out

You're the only star in Heaven, yeah

Now I know that star is mine  
You're the only star in Heaven  
You're the only star that shines  
You're the only star in Heaven  
Now I know that star is mine  
You're the only star in Heaven  
You're the only star that shines  
You're the only star in Heaven  
Now I know that star is mine
